Defining Your Space

Your home is a reflection of your taste and your style. Safeguard windows and doors are designed to elevate every aspect of modern living.

With sleek sightlines, superb aesthetics and timeless design, our windows and doors maximise the beauty of natural light, creating interiors that feel effortlessly spacious.

From expansive sliding doors to high-quality windows, every product in the Safeguard collection is designed to bring modern elegance and lasting comfort into your home.

Designed Without Compromise

Safeguard windows and doors offer something exceptional. The ultra-slim frames provide more glass, less frame and infinite light, delivering a feeling of openness to your home.

Every handle, hinge and locking detail is chosen not just for performance, but for its tactile luxury. Thermal performance sets new benchmarks, with energy efficiency that keeps your home warmer in winter, cooler in summer and sustainable all year round.

Security is built in as standard. Safeguard windows and doors are complemented by state-of-the-art Yale locking systems, giving you peace of mind without compromise.

Why Aluminium?

Today's aluminium windows and doors are designed for modern living. Naturally strong by design, they combine advanced thermal break technology with tough, long-lasting powder-coated finishes to deliver outstanding insulation, durability and security. Aluminium windows and doors can meet the most demanding thermal efficiency standards, helping to create a more comfortable, energy-efficient home.

Their exceptional strength allows for ultra-slim frames and larger spans, meaning more glass, more natural light and clearer views. Durable, resilient and corrosion-resistant, aluminium windows and doors will perform beautifully for decades with minimal maintenance. And when the time does come to replace them, aluminium is 100% recyclable. Quite simply, aluminium sets the standard for modern windows and doors.

Staying Safe

Safeguard aluminium windows and doors are designed to meet current Building Regulations, delivering exceptional strength and reliable protection from the elements. A range of practical safety features can be specified, including night ventilation, fire-escape hinges and child safety restrictors - helping keep everyone in your home safe and secure.

Staying Secure

Advanced multi-point locking comes as standard, while concealed hinges remove common points of attack. Safeguard aluminium windows and doors exceed the requirements of PAS 24, the recognised standard for glazing security, and are accredited by Secured by Design, the official police security initiative. Through our partnership with Yale, a trusted leader in home security, all Safeguard aluminium locking systems are backed by Yale Total Trust Guarantee - giving you complete peace of mind.

Safeguard Windows

No two homes are alike – and neither are our windows.

The Safeguard collection offers distinctive designs with their own character, from cutting-edge contemporary aesthetics to refined modern versatility.

Every window is made-to-measure, manufactured to your exact specifications and installed with meticulous precision. Whether you desire a bold modern statement or a subtle classic, Safeguard delivers a bespoke solution tailored to your vision.

Performance without compromise:

- Meets Part L thermal efficiency requirements with standard 28mm double glazing
- U-values as low as 1.1 W/m²K
- Exceptional resistance to air, wind and water ingress
- WER rating up to A
- 28mm and 36mm glazing options
- PAS 24:2022 accredited system available
- Secured by Design available
- Certified Qualicoat 60-micron powder coating as standard
- Exceptionally slim sightlines mean a glass area that’s up to 12% larger than a comparable window for a lighter, brighter living space
- Easy-clean rebates
- Long lifespan with minimal maintenance

Safeguard Flush Tilt & Turn installation, Llanerchynedd, Anglesey, 2024.

Casement Window

For homes that celebrate modernity, the Safeguard Casement Window delivers clean lines with a subtle rebated frame. It's the essence of understated style and refinement.

Flush Tilt & Turn Window

Designed for versatility and style, the Safeguard Flush Tilt & Turn Window is the perfect choice for medium and high-rise buildings. Concealed gearing and intelligent safety features enhance its streamlined, modern profile without compromising on functionality.

French Casement Window

Bring a touch of continental charm with the Safeguard French Casement Window. Designed without a central mullion, it maximises light and space and can even function as an emergency escape window, all while maintaining its refined aesthetics.

Safeguard Doors

Our doors are more than entrances, they are statements of strength, beauty and security. From contemporary sliding doors to timeless French doors, Safeguard offers a door collection that is suitable for all properties.

Every door is manufactured to order, allowing you to customise everything from opening configurations to glazing, handles and even colour. The result is a door as unique as your home.

Performance Highlights:

- U-values as low as 1.1 W/m²K
- Certified Qualicoat 60-micron powder coating as standard
- Air permeability tested to 600Pa
- Wind load resistance up to 2000Pa
- Water tightness to 600Pa
- Double or triple glazing available

Inline Sliding Door

For those who seek maximum light and minimalist frames, the Safeguard Inline Sliding Door is pure design elegance. With panels up to 1675mm wide, the focus remains clearly on the view beyond.

Performance Highlights:

- U-values as low as 1.2 W/m²K
- Certified Qualicoat 60-micron powder coating as standard
- PAS24 security as standard with laminated glass
- Superior weather performance

Lift & Slide Door

Designed for panoramic views, the Safeguard Lift & Slide Door makes a dramatic design statement. Its innovative design ensures even the largest panes glide effortlessly, opening up living spaces with a touch of luxury.

Performance Highlights:

- 2, 3, or 4-pane layouts
- U-values as low as 1.4 W/m²K
- Certified Qualicoat 60-micron powder coating as standard
- Advanced 4-point locking for security

Slimline Bifold Door

The Safeguard Slimline Bifold Door is the ultimate choice for contemporary homes. With slim meeting stiles just 117mm wide, these doors transform walls into expansive glass panels, creating the best in seamless indoor-outdoor living.

Performance Highlights:

- Up to six sashes
- Multipoint locking & shootbolts for security
- PAS24 security as standard with laminated glass
- U-values as low as 1.2 W/m²K
- Certified Qualicoat 60-micron powder coating as standard

Flush French Doors

An evolution of the classic French door, Safeguard Flush French Doors combine slim, modern flush aesthetics with impressive sleek design. Their sleek frames create a sophisticated connection between interior and exterior spaces.

Flush Residential Door

The perfect partner to Safeguard windows, this door is ideal for both front and rear entrances. Whether fully glazed or partially glazed, its minimalist flush design and tailored finishes ensure a refined door aesthetic.

Colours & Finishes

Every Safeguard product is finished with a durable, marine-grade polyester powder coating backed by a guarantee up to 10 years. It is even suitable for coastal areas*. Choose from an extensive palette of colours, or specify any RAL colour of your choice for a truly bespoke finish.

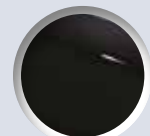

Whichever finish you select, maintenance is effortless. A simple wipe is all it takes to keep your windows and doors looking as pristine as the day they were installed.

Handles & Hardware

The finishing touches define luxury. Safeguard's handles and hardware are manufactured from premium materials, chosen for their security and enduring quality.

Partnered with Yale, the leader in home security, all Safeguard locking systems are covered by Yale's Lifetime Security Guarantee, because true luxury is feeling safe and secure.

Glass that does more

The glazing in your windows and doors plays a quiet but vital role - keeping warmth in, managing light and helping create a more comfortable, energy-efficient home all year round. Safeguard offers a choice of advanced glass options so you can select the level of performance that suits your space.

Planitherm One

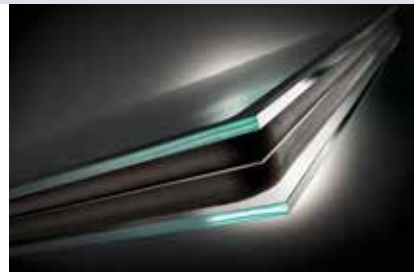

Planitherm One delivers higher levels of thermal insulation, maintaining a more stable indoor temperature. It's an excellent choice for larger glazed areas or projects where energy performance is key.

Triple glazing

Regency Triple featuring Corning® Enlighten™ Glass. Triple brings the benefits of traditional triple glazing in a lighter, more practical design. With an additional ultra-thin pane of glass, it enhances heat retention, improves efficiency and supports lower running costs over time.

All options offer a clear, neutral appearance, delivering impressive performance while keeping your home bright and welcoming.

Thresholds

From seamless transitions to Part M compliant low thresholds, Safeguard doors offer options that combine convenience with weatherproofing and design integrity.

Guarantees

Safeguard windows and doors are built to last. Our guarantees offer complete peace of mind and include:

- 10-year profile guarantee
- 10-year powder coat finish guarantee against peeling, corrosion, chalking, or fading (>5km from coastline)
- Yale Total Trust Guarantee with compensation and cover in the unlikely event of a hardware security failure.

Safeguard is low-maintenance, but proper aftercare is still required. Not following the cleaning and maintenance guidelines may invalidate the guarantee. For installations within 5km of the coast, or in industrial areas or swimming pools, a site-specific guarantee with additional conditions is required. Please speak to your sales advisor for details.

Planning & Building Regulations

Most window and door replacements require no planning permission. However, conservation areas or listed properties may require special approval. Our experts can advise and ensure full compliance with all building regulations, including safety, ventilation and thermal standards. Please speak with your Safeguard installing partner.

About Safeguard Aluminium

Safeguard Aluminium is a multi-award-winning system from a UK leader in windows and doors with a nearly 40-year track record of quality and service.

Every Safeguard Aluminium product is British-designed and manufactured with an uncompromising commitment to excellence. These are windows and doors designed to stand the test of time in terms of style, security and performance.

SafeGUARD
